500

A champion for challenging areas  
and harsh environments

# Marathon 500

A champion for challenging areas and harsh environments

### Marathon heritage: Experience fosters expertise

For more than 30 years our Marathon range has provided long term protection of structures in the harshest environments.

### Introducing a champion – Marathon 500

Marathon 500 combines our accumulated experience with the latest advances in coatings technology, resulting in a high build, abrasion resistant product ideal for structures even in tidal/splash zones and other exposed areas.

### Durable one coat protection

One high build coat provides a solid barrier to the environment, extending useful lifetime. Turnaround time, along with associated costs, is reduced where high film thickness is required.

### + Strength to withstand harsh environments

Excellent abrasion resistance reduces the risk of mechanical damage, extending the lifetime of the coating.

### + Underwater curing

Marathon 500 is early submersion tolerant, making it ideal for structures and areas exposed to tidal water movement.

### + Limited surface preparation needed

Can be applied on previously coated surfaces subject to Ultra High Pressure Water Jetting, as well as power tool cleaning.

### = A strong and enduring solution for harsh environments

The thick paint film coupled with high abrasion resistance makes a formidable barrier to its environment, preventing damages to the paint film and thereby nipping corrosion in the bud. Tolerance to less than ideal substrates coupled with underwater curing also mean the product is ideally suited to efficient maintenance of a wide range of structures.

Engineered to withstand harsh environments and exceptionally well suited to maintenance of areas in the splash/ tidal zone

### Industries

Oil & gas

Infrastructure

Energy

Mining

### Examples of application areas

- Splash zones
- Jackets
- Jetties
- Pilings
- Offshore wind transition pieces
- Condensate boxes
- Caissons
- Water & waste water facilities
- Decks, walkways & topsides
- Helidecks

### Marathon 500: Key features at a glance

<b>High build epoxy</b>	Up to 500µm in one coat
<b>Strong paint film</b>	Excellent abrasion & impact resistance
<b>High solids content</b>	85% volume solids
<b>Temperature flexible</b>	Will cure down to 0°C
<b>Colour choice</b>	Range of colours available
<b>Surface tolerant</b>	Can be applied on surfaces subject to: Hydroblasting to WJ2 Power tool cleaning to St2 Dampness tolerant
<b>Underwater curing</b>	Will continue to cure underwater shortly after application

# Marine and protective coatings offices worldwide

Legal Jotun entities world wide are listed. For details of Branch offices and Jotun representation in countries not listed, please visit [jotun.com](http://jotun.com)

## AUSTRALIA

Jotun Australia Pty. Ltd.,  
P.O. Box 105, Altona North,  
9 Cawley Road,  
BROOKLYN, VIC 3025
